

EDUHUB

Education is moving from darkness to brightness. . . .

PROBLEM STATEMENT

TO ENHANCE CONCENTRATION
AMONG STUDENTS FOR BETTER
PERFORMANCE.

What's solution ??

- A Platform where student can do their study without any distraction.
- Until they can't do their task complete,they are not allowed to switch anywhere.
- Study Time will be recorded while watching lectures.
- If they have any doubt,all required functions will be provided over there.

FEATURES:

- Access to all Courses in free
- No Distraction in study
- Quiz
- Doubt solving chatbot
- Live Webinars or Sessions
- Rewards
- Certifications

TECHNOLOGY

HTML

For basic structure
of web pages.

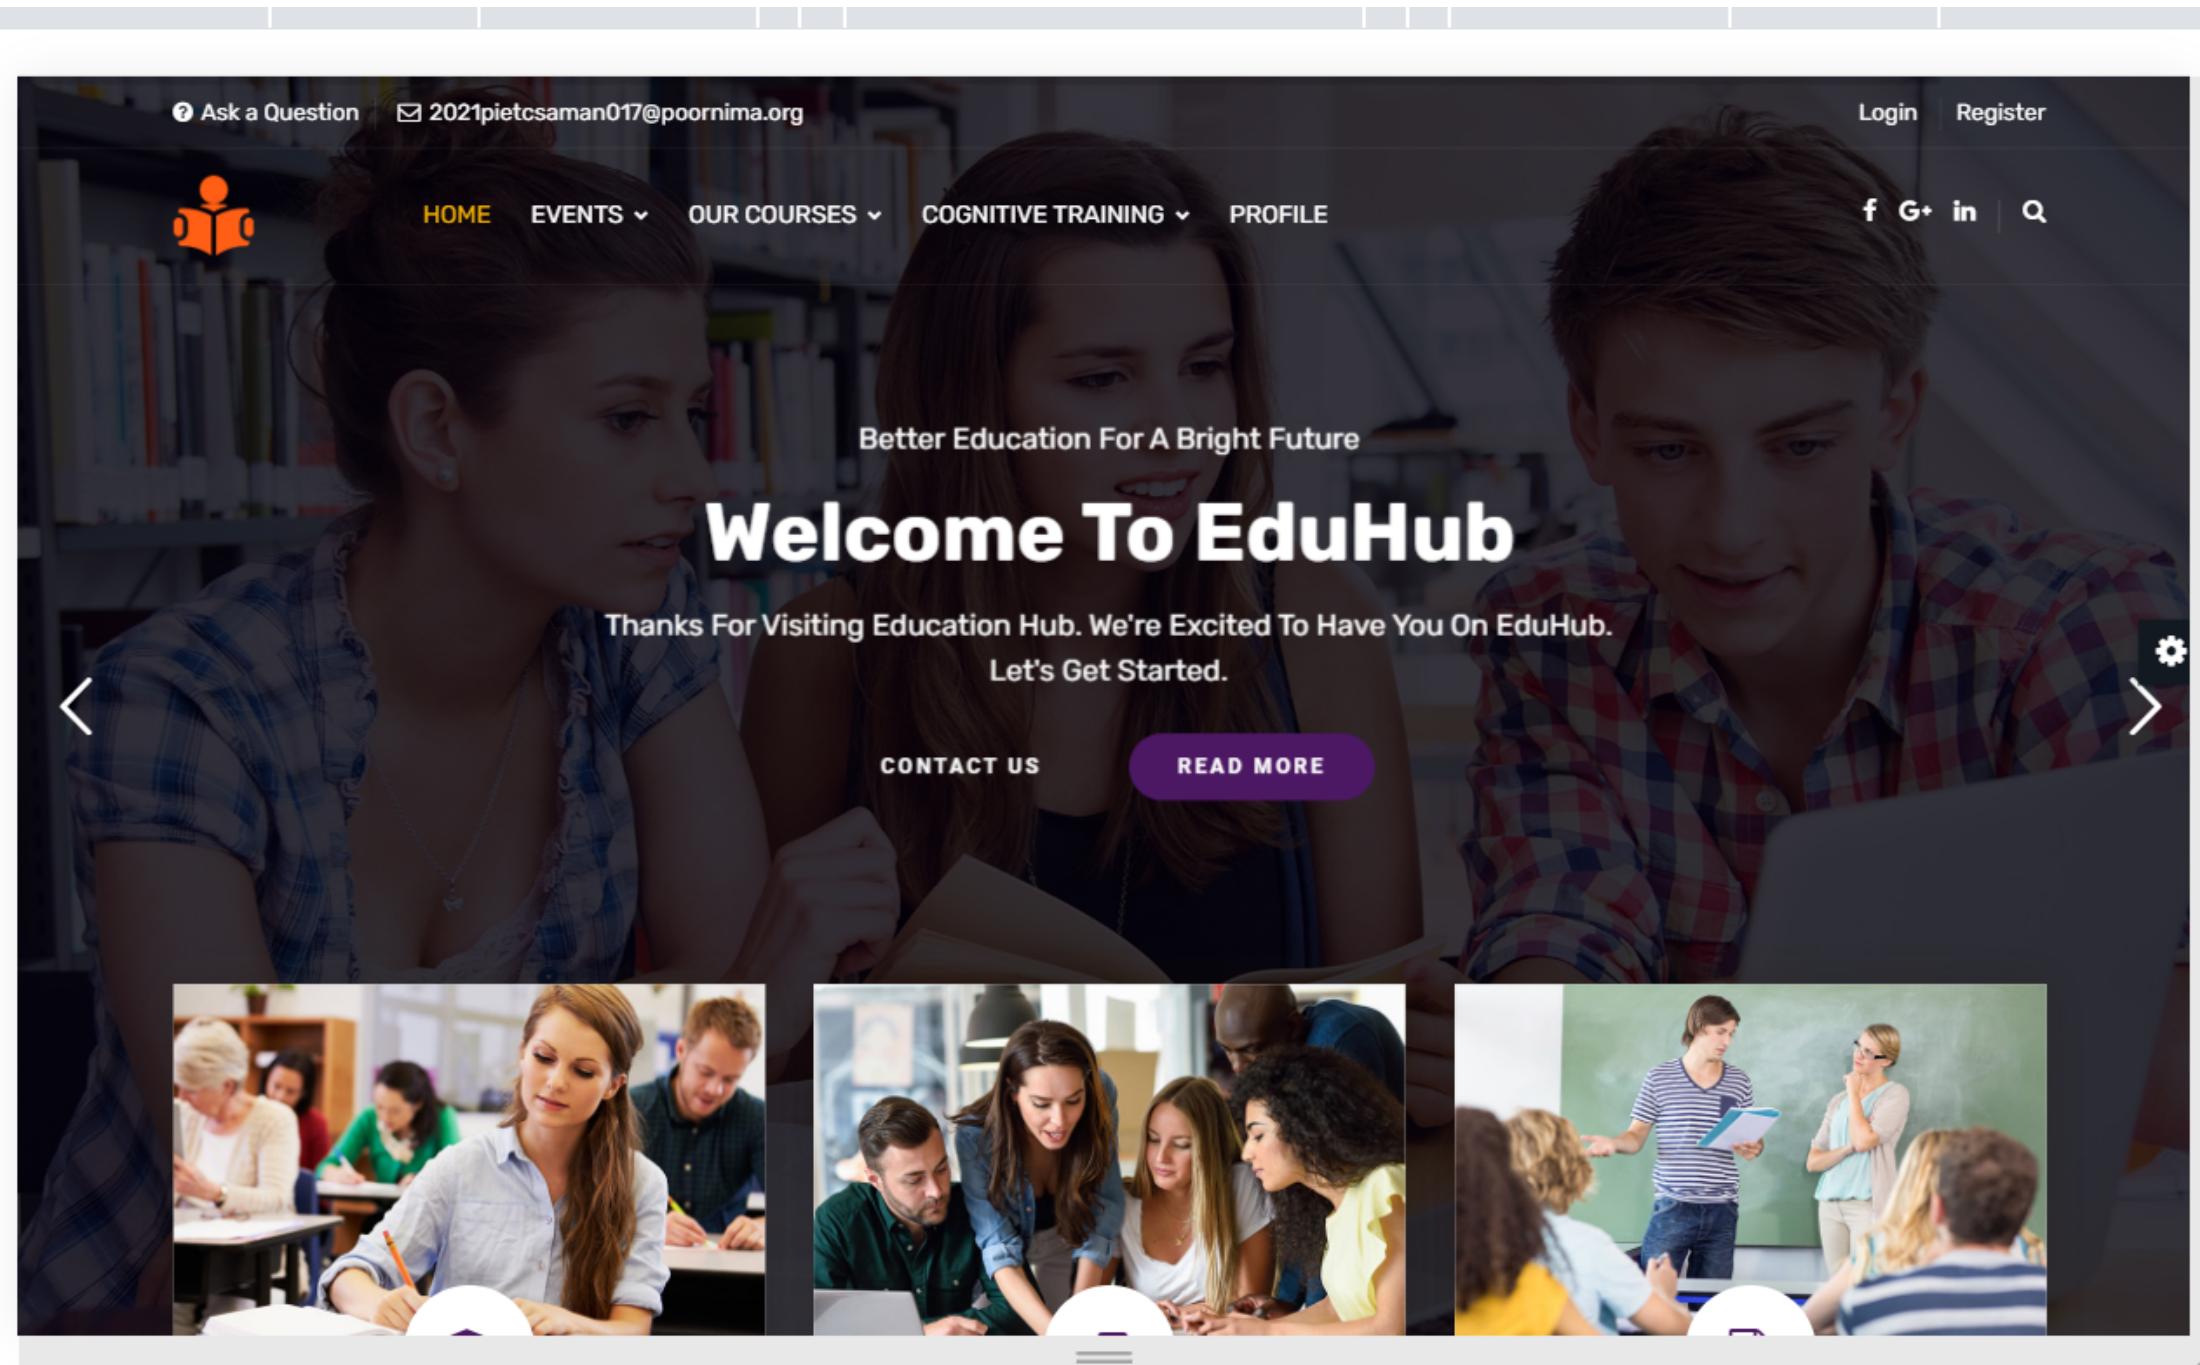

CSS

For styling the
pages

JAVASCRIPT

For Animations and
advanced features

HIGHLIGHTS

The screenshot shows the homepage of EduHub. At the top, there is a navigation bar with links for "Ask a Question" and an email address "2021pietcaman017@poornima.org". On the right side of the nav bar are "Login" and "Register" buttons, along with social media icons for Facebook, Google+, LinkedIn, and a magnifying glass for search. Below the nav bar is a large banner featuring three students in a library. The banner has the text "Better Education For A Bright Future" at the top, followed by "Welcome To EduHub" in large white letters, and "Thanks For Visiting Education Hub. We're Excited To Have You On EduHub. Let's Get Started." below it. There are "CONTACT US" and "READ MORE" buttons. At the bottom of the banner are three smaller images showing students in various educational settings.
